

Carson Adamson

Oklahoma City, OK • 405-431-6004 • carsonadamson15@gmail.com linkedin.com/in/carson-adamson-267980325

Computer Engineering student at the University of Oklahoma (May 2027) seeking a Computer Engineering related internship. Strong foundation in Java, C, and Python with hands-on experience in embedded systems, data structures, and performance analysis. Experience in circuit analysis, systems design, and hardware-software design. Interests in Software Development, Information Technology, AI, Cybersecurity, and Electrical Systems Engineering.

Education

University of Oklahoma — Norman, OK Bachelor of Science in Computer Engineering Expected May 2027
GPA: 3.3

Rose State College — Midwest City, OK Associate of Science in General Science (2024)

Technical Skills

Languages: Java, C, Python
Tools: Git/GitHub, MATLAB, Linux, VS Code, Eclipse IDE, Multisim
Frameworks: React, Node.js

Hardware: Arduino, Microcontrollers, Sensors, Circuit Design
Concepts: Data Structures, OOP, Frontend/Backend Integration, State Management, Asynchronous Programming, API Integration

Projects

Java Data Structure Performance Analysis — University of Oklahoma

- Compared LinkedList vs ArrayList performance for insertion, deletion, and traversal
- Built benchmarking tests to evaluate runtime, memory usage, and scalability

Mobile Drink Ordering Web App

- Developed full-stack web application enabling QR-based drink ordering
- Designed responsive UI with customizable drink options and cart functionality
- Built frontend using React and deployed via Vercel

Autonomous Robotics Systems — Eastern Oklahoma County Technology Center

- Developed line-following robot using C++ with sensors and motor control
- Engineered robotic elevator system integrating limit switches and precise movement logic
- Implemented backend logic to manage orders and user interactions
- Optimized user flow for fast ordering in high-traffic environments (bars/events)
- Integrated real-world use for mobile ordering
- [Live Demo](#) | [GitHub](#)

Experience

Casino Party Dealer — Jackpot Casino Parties (2023–Present)

- Delivered engaging, fast-paced customer experiences while managing multiple game operations
- Strengthened communication, adaptability, and decision-making under pressure

Guest Services Associate — Oklahoma City Dodgers (2023)

- Managed ticket verification and high-volume guest flow at large events
- Maintained safety standards while providing strong customer service

Leadership

Recruitment Chair — Sigma Chi Fraternity (2025–Present)

- Led recruitment strategy targeting top candidates through outreach and event planning
- Analyzed recruitment data and engagement metrics to optimize outreach strategies

Co-Founder — Quantum Society, University of Oklahoma (2025–Present)

- Founded organization promoting quantum computing awareness and career opportunities
- Organized and led meetings regarding future quantum computing networking events
